

OEESC is the leading international conference dedicated to skin exposure to chemicals, bringing together experts in occupational hygiene, health and safety, dermatology, skin research, toxicology, product formulation, regulatory science, and related disciplines. It's an excellent opportunity to share your work, connect with global specialists, and contribute to the latest discussions in skin exposure management.

We are pleased to announce that the abstract submission deadline has been **extended to Friday, 20 March 2026**.

We welcome abstracts for both oral and poster presentations on any topic relevant to occupational or environmental skin exposure.

This is the final deadline, and **no further extensions will be granted**, so if you'd like to be part of the OEESC 2026 programme, now is the perfect time to submit.

A rectangular button with a dark red background and white text that reads "Submit your abstract".
